## TRAINING AND INTERNSHIP

---

### MERN Stack Development Training

GrowTech

28 Jan - Present

- Learned full-stack web development using MERN (MongoDB, Express.js, React, Node.js).
- Built responsive UIs with HTML, CSS, JavaScript, and React.
- Developed RESTful APIs and handled database operations in MongoDB.

### Cloud-Based Full Stack Development (MERN)

Ardent Computech Pvt. Ltd.

July 2025 – August 2025

- Gained hands-on experience in cloud-based full-stack application development.
- Worked on frontend, backend APIs, and database integration using MERN stack.

## PROJECTS

---

### Local Service Hub

MERN Stack Web Application

- Developed a MERN-based platform to connect users with local service providers such as electricians and plumbers.
- Implemented role-based authentication for users and service providers using JWT.
- Built booking and service management features with React.js, Node.js, Express.js, and MongoDB.
- Designed RESTful APIs and tested them using Postman.

### Gym Training Guide Application

MERN Stack Web Application

- Developed a fitness web application to provide workout plans and gym training guidance.
- Created frontend using React.js and backend services using Node.js and Express.js.
- Stored workout data and user profiles in MongoDB.
- Implemented secure user authentication and CRUD operations.

## CERTIFICATIONS

---

Enhancing Soft Skills and Personality Development

Database Management System (DBMS)

Full Stack Development with MERN
